

PD OE Replacements

Historical OE Data. Transparent. Reliable.

What is PD OE Replacements?

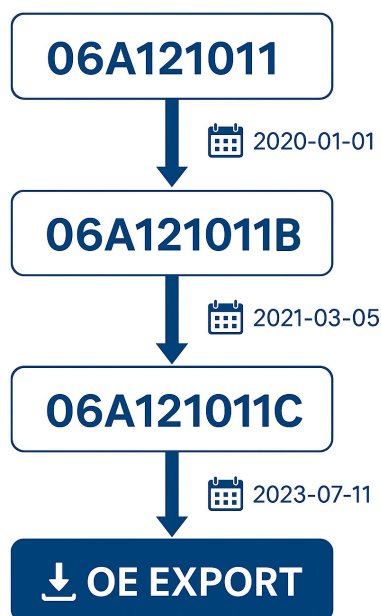

PD OE Replacements provides transparent, traceable replacement chains of OE parts. Outdated, no longer valid OE numbers are a thing of the past..

Ideal for: Parts dealers, marketplaces, ERP/ shop systems, assortment optimization

Application Examples

- Matching & updating OE numbers in catalogs
- Securing platform listings against outdated OE data
- Assortment streamlining for inventory & ERP
- Supplier comparison & optimization of procurement processes

Your Benefits:

- 1. Seamless OE History**
Transparent information of all replacements
- 2. Up-to-date Assortment Data**
Automatically replace outdated OE numbers with successors – your catalog stays current and well-maintained.
- 3. Vermeidung von Rücksendungen**
Identify and correct misassignments before sales – fewer returns, greater satisfaction.
- 4. Covers over 40 Vehicle Brands**
- 5. Data Delivery as File or API**
Formats: Excel/CSV – regular updates
Data output: Replacements (line-by-line) & Chains (complete chain)
